

Prairie Bride Had A Memorable Experience In Journeying Across The West In The Early Days

(From Toronto Telegram)

IT TOOK three months in the early twenties to travel from London, Ont., to Manitoba when vacationing young Richard Angelica Chisholm made her first journey westward. Now, having just celebrated her birthday on February 22nd, she has lived in the west for more than 10 years. Her Western Hill road-side still-appearing lady looks back cheerily to happy days spent as bride and young wife on the prairie, where her husband was an Indian agent.

Chisholm has played an active part in the life of the Dominion Government, and has been active on the district since Mrs. Macrae's death in 1914. She was born in New York county associated with the history of the province. Her father, John Macrae, was a well-known figure in the life of the 18th century and who built around 1804. Mrs. Chisholm, on a side her husband of 18 years, is a widow. She was born in 1885 and 1890 than any other home in York.

Ontario-Governor Sir Oliver was a politician in the Ontario House of Commons, and a portrait of the governor, done in England and attributed to Lawrence, was presented by Sir Oliver to the Ontario House of Commons. Mrs. Macrae's grandfather, Sir Oliver, was a member of the House of Commons. Mrs. Macrae's grandfather, Sir Oliver, was a member of the House of Commons. Machinery Restrictions Off

Roller restrictions on farm machinery and equipment, including tractors, have been removed by the Wartime Prices and Trade Board.

However, dealers are expected to honor outstanding roller certificates before filling orders on new equipment. It is anticipated that in the current production year, supplies of new implements will be 20 per cent greater than in the previous year.

Rolling service men will be given preference in the sale of same.

PREPARE FOR NEXT YEAR

Preparation for next year's crop should include a Seed Test. Make a germination test on your seed now—NOW!

Our Agricultural Department make such tests free of charge. If you have an agricultural or marketing problem, consult our agent who will refer it to a specialist.

We supplied only 44,000,000 lbs. to August 31.

In most liberated European countries, there is a desperate shortage of meat. As a great food-producing area, Canada must—and will—help to meet the emergency. The job will not be finished at the year's end. Food supplies in Europe will continue until the next harvest.

This year, Europe is relying on Canada for a minimum of 787 million pounds of beef, pork and canned meat. Up to the end of August, only 479 million pounds had been sent.

MEAT RATIONING ADDS TO EVERYONE'S WORK

The producer who slaughtered, the retailer who sold, the consumer who kept and sold—they all play a part.

AS A CONSUMER, HERE IS HOW YOU CAN CO-OPERATE

1. Try to plan your meat purchases before leaving home by determining what cuts you intend to buy and their approximate weights.
2. Make sure you have enough valid coupons and tokens to cover your proposed purchases.
3. Refer to the Consumer Coupon Value Chart and the Coupon and Token Calculator. Coupons may be obtained from your local Ration Board or Ration Branch.
4. Know the dates your "7M" coupons become valid.
5. Do not use more than you really need.
6. Be patient. Remember—your butcher may have inexperienced help.
